

Dear Sir or Madam,

from May 13th-15th 2018 a March of the Nations will be held on the occasion of Israel's 70th anniversary (www.mon2018.com).

It will include a conference with up to 3.000 participants in the International Convention Center of Jerusalem, a march through the heart of Jerusalem at which Christians and Jews will walk side by side as well as a „Festival of Life“ at Sultan's Pool.

At the conference in the International Convention Center Jerusalem from May 13th-15th, 2018, we want to provide you with a unique offer to be part of this event as exhibitor to present your product/ministry. There are several exhibition areas and your booth can be arranged individually. All exhibition areas are easily accessible for visitors. As exhibitor you will reach many international leaders and public figures from all over the world on this conference!

Beside well-known international speakers such as Daniel Kolenda and Heidi Baker, also Members of the Knesset and Holocaust Survivors will take part. By today, nearly 1.500 people from 22 different nations have already registered and we expect 3.000 participants on the conference in total. This conference will be one of the biggest and most international events on the occasion of this anniversary. The March of the Nations Conference will take place at the International Convention Center Jerusalem, one of the most known and biggest event locations in all of Israel.

You can choose the location of your booth yourself – as long as stocks last!
